

Visit, part of the GES family, is looking for an experienced Frontend Developer (Haarlem, hybrid)

About Visit

Since 1992, Visit (<https://visitcloud.com/>) has grown steadily to become Europe's leading event registration, ticketing, and data intelligence company. Today, event organisers across the globe use our software and services like Visit Intelligence and Visit Connect to collect, understand, and monetise their data. Visit enables event organisers to deliver targeted, personalised visitor promotion campaigns that really work.

We have offices in the Netherlands, United Kingdom, Romania, and Dubai plus a network of accredited partners worldwide. Together, we deliver innovative software solutions that really work. Visit is part of the GES (www.ges.com) family which is a Viad enterprise (www.viad.com), listed at the NYSE as VVI and a leading global provider of extraordinary experiences, including hospitality and leisure activities, experiential marketing, and live events.

About the vacancy

Visit has experienced considerable growth in 2023 with 5.3 million registrations at 1,200 events in 51 countries resulting in more than 3.3 million leads!

We have also introduced various engagement tools to enhance the events experience. By streamlining the development cycle, the platform now ensures faster and more responsive updates and improvements. The exhibitor and visitor apps recently had a major UI/UX transformation to optimize the user experience.

The development team in Haarlem, located in a historic building in the city centre, is aiming to further innovate the services and shape the future of events. We are looking for an experienced **Frontend Developer** to join our team to build the best and most innovative features for millions of visitors and powerful functionalities for our clients.

You will be responsible for translating requirements into features in the interface / front-end of the platform. Ensure cross browser compatibility, responsive design and focus on the usability & design of the product during the projects.

Key activities and responsibilities:

- Translate requirements into fully functioning features using the latest web techniques and common frameworks in cooperation with the rest of the team.
- Create concepts/prototypes to be able to align project approach with selected stakeholders.
- Continuously focus on improving the Visit products by incorporating enhancements into current development and/or making proposals to the roadmap for larger enrichments.
- Being involved in the maintenance of the product by looking into support tickets and collaborate on resolving them fast and satisfactory in the product.

- Actively engage in continuous improvement ensuring suggestions and opportunities are highlighted and shared with the team.
- Collaborate and provide support to the wider Visit development team consisting of front- and back-end developers, hardware and DevOps engineers, project managers, testers, and technical writers in the Netherlands and Romania.

Skills, qualifications, and experience:

- Bachelor or Master level of education or working experience in relevant sector/field.
- Minimum of 3 years work experience in a similar role.
- Professional proficiency in the English language. Dutch language skills are a plus.
- Expert knowledge and experience in JavaScript frameworks, Git, GitLab, Jira, and Confluence.
- Experience with common web techniques like HTML, CSS, JavaScript. Knowledge off Vue and Quasar is a plus.
- Ability to work in a fast-paced and dynamic environment.

Why join Visit:

- Opportunity to collaborate with a talented team of professionals in a growing global organization.
- An excellent remuneration package with a salary that best reflects your experience and skill level.
- Minimum requirement to work 2 days in the office in Haarlem.
- A professional and dedicated team in an informal and open work atmosphere with short communication lines and the ability to make an impact on the product.

Interested?

If this vacancy has made you curious about us, we look forward to hearing from you. You can send your CV to Manuela Willemsen-Lantos, executive search consultant at MintSearch via manuela@mintsearch.nl or contact her by email or phone (+31(0)652055672) for more information.

Unique offer:

If you are shortlisted as a candidate, we will arrange a “Visit to the Visit Team” to give you a look behind the scenes and share more information about our platform and the technology we use.
