

## Visit, part of the GES family, is looking for a Project Manager (Haarlem, hybrid)

### About Visit

Since 1992, Visit (<https://visitcloud.com/>) has grown steadily to become Europe's leading event registration, ticketing, and data intelligence company. Today, event organisers use our software and services like Visit Intelligence and Visit Connect to collect, understand, and monetise their data. No matter what region, language or currency, Visit enables event organisers to deliver targeted, personalised visitor promotion campaigns that really work.

We have offices in the Netherlands, United Kingdom, Romania, and Dubai plus a network of accredited partners across the globe. Together, we deliver innovative software solutions that really work.

Visit is part of the GES ([www.ges.com](http://www.ges.com)) family which is a Viad enterprise ([www.viad.com](http://www.viad.com)), listed at the NYSE as VVI and a leading global provider of extraordinary experiences, including hospitality and leisure activities, experiential marketing, and live events.

### About the vacancy

Visit is experiencing considerable growth with 5.3 million registrations at 1,200 events in 51 countries resulting in more than 3.3 million leads!

We have also introduced various engagement tools to enhance the events experience. By streamlining the development cycle, the platform now ensures faster and more responsive updates and improvements. The exhibitor and visitor apps recently had a major UI/UX transformation to optimize the user experience.

The product development team in Haarlem, located in a historic building in the city centre, is growing and aiming to further innovate the services and shape the future of events. We are looking for an experienced **Project Manager** to join the team and manage a range of tech projects.

**As a Project Manager, you will be at the forefront of our software development initiatives, ensuring the successful execution of projects from inception to delivery.**

### Your responsibilities will include:

1. **Project Planning and Execution:** Develop comprehensive project plans, defining scope, objectives, timelines, and resource requirements. Execute projects efficiently, ensuring adherence to deadlines and budget constraints.
2. **Team Collaboration:** work with cross-functional teams located in Haarlem and Romania, fostering collaboration, and maintaining a positive work environment. Coordinate tasks, monitor progress, and provide guidance to team members as needed.
3. **Stakeholder Communication:** Serve as the primary point of contact for clients and stakeholders, maintaining regular communication to provide updates on project status, address concerns, and manage expectations effectively.

4. **Risk Management:** Identify potential risks and issues that may impact project delivery. Implement strategies to mitigate risks, resolve conflicts, and ensure smooth project progression.
5. **Quality Assurance:** Uphold the highest standards of quality throughout the project lifecycle. Conduct thorough testing and validation to ensure that deliverables meet or exceed client expectations.
6. **Continuous Improvement:** Drive process improvement initiatives to optimize project management methodologies and enhance team productivity. Proactively seek feedback and implement best practices to achieve operational excellence.

#### Who you are:

- Proven experience in IT project management, preferably in a software development environment.
- Interpersonal skills with the ability to inspire and motivate teams to achieve common goals.
- An excellent communicator with the ability to build rapport with clients and stakeholders.
- Solid understanding of project management methodologies, tools, and techniques.
- Pragmatic and pro-active approach to problem-solving, with a focus on delivering practical and effective solutions in a fast-paced and dynamic work environment.
- Language skills that are fluent in English. Dutch language skills are a plus.

#### Why join Visit:

- Opportunity to work with a talented team of professionals in a growing global organization.
- An excellent remuneration package with a salary that best reflects your experience and skill level.
- Minimum requirement to work 2 days in the office in Haarlem.
- An organization with an informal and open work atmosphere, short communication lines, and the ability to make an impact on the business.

***If you are passionate about project management and eager to contribute to the success of innovative software projects, we would love to hear from you.***

**Apply now to join our team and embark on an exciting journey of innovation and excellence!**
